

CIS—LAN ADMINISTRATION CURRICULUM TRANSFER GUIDELINE

	SCHOOL: Peirce College MAJOR: Information Technology/Networking
Community College Curriculum: CIS—LAN Administration Coordinator: Mardi Holliday Phone: 215-496-6131 E-mail: mholliday@ccp.edu Office: C3-1	Peirce Contact Person: Ed Weckerly, Admissions Phone: 215-670-9213 Email Address: EJWeckerly@peirce.edu Web Address: www.peirce.edu

General Information: This guide outlines an agreement between CCP and Peirce. Students who earn an AAS in CIS—LAN Administration from CCP transfer to the Information Technology/Networking major at Peirce with junior standing. Only courses with grades of “C” or higher transfer. Students are also eligible for a dual admissions agreement. The dual admissions agreement guarantees Peirce scholarship money to holders of the associate degree who have earned at least a 2.5 cumulative GPA. Dual admissions students work with personnel from CCP and Peirce to create an individualized educational plan. They are also allowed access to Peirce facilities such as the library and computer labs and are invited to Peirce special events. Students must sign a Letter of Intent form no later than the completion of 30 credits. For more information, visit the dual admissions page on the CCP web site and/or contact the Educational Support Services Division of CCP in room W1-1, 215-751-8025. Students do not have to be in the dual admissions program to take advantage of the program-to-program agreement.

COMMUNITY COLLEGE OF PHILADELPHIA - CIS—LAN Administration Curriculum	PEIRCE REQUIREMENTS
OA 110 Professional Keyboarding	Elective
