**General Information:** The following outlines an agreement between CCP and St. Joseph's. If a student earns an A.A. degree in Communication Arts-Speech, he/she is accepted to St. Joe's with junior status. Students must earn at least a 2.25 gpa. The English/Communication program is only offered through St. Joseph's University College - the evening school at St. Joe's, although students may arrange to schedule courses during the day. An English major with a literature concentration is offered through University College and an English major is also offered through the School of Arts and Sciences during the day. Students interested in these majors should major in Liberal Arts at CCP and consult the General Education listing for University College or the day university. **Note: This guide is based on CCP degree requirements for students who entered the communications curriculum through summer 2009. Students who enter the curriculum fall 2009 or after should consult communications curriculum advisors about curriculum changes.**
