

Students, Faculty and Staff:

Please be advised that on Friday, Oct 29, 2009 Gilbane has arranged to install a Web-based Camera System for your future viewing of the construction progress - soon to be added to the web-site.

The contractor will be using a high lift along the east side of 17th street, just before the crossover bridge. They will have temporary fencing around the lift and that portion of the **sidewalk will be temporarily closed**. The crosswalks will remain open at all times, so please cross to the west side of the street to safely pass the area of this effort. Please exercise caution as you walk through this heavily congested area.

The installation could take several hours so please plan accordingly. Questions and comments can be sent to MainProject@ccp.edu Your continued patience is greatly appreciated.
