

THOMAS JEFFERSON UNIVERSITY SCHOOLS OF HEALTH PROFESSIONS AND NURSING

AGREEMENT REQUIREMENTS

(For programs in bioscience technologies, nursing, occupational therapy and radiologic sciences)

- CCP has signed an affiliate agreement with TJU. The affiliate agreement states that a student who completes all prerequisite courses with at least a 3.0 cumulative GPA, must submit two letters of recommendation: one from a designated Community College of Philadelphia representative (a faculty member, department head, clinical coordinator, lab instructor, or an administrator) and one from a personal, professional or academic source inside or outside of CCP.
- The CCP recommendation must include a statement as to whether the candidate is recommended or not recommended, followed by an evaluation in narrative form commenting on such criteria as academic performance, citizenship, and the student's ability to function in a health care setting.
- Students must complete all pre-professional courses at other institutions. Academic courses with a grade of 'C' or above and ACT-PEP credits are acceptable for transfer. Not all courses need to be completed at the time of application, but must be completed before the start of the program. **Students are recommended to apply early, up to a year in advance of the intended start date.**
- For information on specific program prerequisite courses, visit http://www.jefferson.edu/university/admissions-schools/admissions/partner_schools/transfer_equivalency_guide.html (see link for Community College of Philadelphia under 'Our Partners') and consult the Jefferson Affiliate Manual for admissions and program information.

Students with disciplinary or criminal records may be denied admission.

Applications from students that still need many prerequisite courses and/or have a GPA below 3.0 will most likely not be eligible for review.
